WALLCOVERINGS01 COLLECTION

MissoniHome Wallcoverings01 is a collection that completes Missoni's already broad and historic line with a multitude of colorful proposals dedicated decorating private and public interior walls. Finally, walls dress themselves in Wallcoverings MissoniHome!

Colors, shades, nuances and contrasts are intertwined in endless games and reading graphics frames, in-line with innovative or iconic signs of Missoni's style.

As a result we see Romantic sunrises and sunsets graphic patterns, fascinating and amazing borealis lights. A mix in between natural elements - hellebore, pink, botanical prints - and woman faces, flower falls and sophisticated foliage. Furthermore, the iconic zigzag Missoni's pattern couldn't be left out as well as dégradé lines proposed in different color gradations.
